DreamFolks introduces Travel SIM services for one of the leading Clients

National, November 2, 2023 – DreamFolks, India's leading Airport and Travel services aggregator, announced the launch of its new service - Travel SIM (E-SIM & Physical SIM). DreamFolks has onboarded one of its leading Clients who will offer this service to their end consumers. DreamFolks has collaborated with a leading global Travel-SIM provider to provide travelers access to reliable international connectivity. Designed to cater to students, leisure, & business travelers, Travel SIM presents an alternative to conventional international roaming telecom solution.

Through this new offering, DreamFolks is providing a way for international travelers to enjoy immediate connectivity while travelling abroad, by getting a pre-activated SIM card while in their country of origin. Travelers can choose a region wise or a global package and stay connected.

To avail the Travel SIM service, eligible card holders need to simply visit the DreamFolks web-access solution and can get an activated ready-to-use SIM before their scheduled travel.

Commenting on the launch, Liberatha Kallat, Chairperson & Managing Director of Dreamfolks Services Ltd., expressed her enthusiasm, *“We are thrilled to see that the solution is being well received by our clients. Travel SIM is a service that aligns with our mission to elevate seamless travel experiences. This service addresses a major pain point for international travelers by providing global connectivity wherever they go, without the hassle of purchasing a new SIM card in every country they visit. We are confident that Travel SIM will be a valuable addition to our portfolio of services, and we look forward to empowering travelers to make the most of their travel.”*
